

What is the stand?

- The stand has been a long standing meeting place.
- Ice Cream , Snow Cone, Cheese Fries, Popper's, Air Planes, Paddle Balls
- The structural condition of the stand is in question.
 - Electrical
 - Plumbing
 - The left front corner of the building has settlement cracks evident on the exterior walls
 - There are issues with some of the support beams.
 - Asbestos siding ??
 - Roof
- What is the best use of the building?
 - Meeting place for folks as it has been for a long time.
 - A place for the visiting minister to stay
 - An expanded area for children's programs;
 - Crafts
 - Music
 - Restrooms for folks visiting Campmeeting that do not have access to a tent

So what is our best option to solve the issues?

Re BUILD

- Cost ?
- Can build on same foot print
- No change to set backs
- No zoning issue

Build New like current structure

- Cost?
- Would require new foot print
- Setbacks?
- Zoning?

The Trustees are seeking input from the holders on thoughts about the future of the stand. Please take this home, think and pray about it. If you have interest in discussing further we will have a short meeting after Church on Thur night for those who are interested in discussing further and working on a solution
